

Hawaii Green Business Program

Checklist

Onsite Verification

Green Business Recognition!

Checklist

In order to be recognized as a Hawaii Green Business, applicants must follow the instructions listed under each section or check N/A and skip that section if it does not apply. When completed, please submit this Checklist to travis.hiramoto@doh.hawaii.gov. If your business complies with HGBP Checklist requirements, applicants may continue the process toward recognition by allowing a Site Check. Motor: For islands other than Oahu, please refer to your island's corresponding utility/entity websites. A list of neighbor island utilities/entities has been provided at the end of this checklist.

See <u>opala.org</u> for business recycling

Recycling and Waste Reduction

A. SOLID WASTE GENERATION

Section N/A

YES

	Implement at least four (4) measures within this section.
1.	Keep a recycling bin in the office and a stack of previously used paper near printers for reuse \Box
2.	Reduce unwanted mail by the following:
	Write to or call senders requesting removal from mailing list
	Return labels from duplicate mailings & subscriptions
	Visit stopjunkmail.org for guidance
	Purge your own mailing lists to eliminate duplication
3.	Use electronic files rather than paper ones
4.	Practice efficient copying by using the size reduction feature (e.g. print two pages of text on one page)
5.	Minimize misprints with printer training or a diagram showing how to load special paper
6.	Minimize printing by eliminating unnecessary forms and reports \mathbf{or} sending them electronically
7.	Eliminate, double-side, make electronic, or redesign forms
8.	Reuse envelopes as both send and return envelopes
9.	Design marketing materials to require no envelope – simply fold and mail
10). Eliminate fax cover sheets by using "sticky" notes, use software that allows you to fax
	electronically, or utilize an internet "efax" service
11	. Lease, rather than purchase, computers and printers

12. Recycle old computers and other electronics
13. In the break room, use permanent ware (mugs, dishes, utensils, towels/rags, etc.)
or refillable containers (for ketchup, salt, etc.)
14. Select products with the least packaging and/or which have easily recyclable packaging
15. Choose vendors who take back products after their shelf life is over (i.e. fluorescent light bulbs) or
work with vendors to minimize product packaging
16. Replace several similar products with one or two that do the same job
17. Offer a small incentive to customers who bring their own shopping bags, coffee mugs, etc
18. Use optical scanners for precise ordering; track material usage to optimize ordering and use of
time-sensitive materials
19. Other:
D. OFMEDAL DECYCLING
B. GENERAL RECYCLING
Section N/A
VES
Section N/A
Section N/A Implement at least one (1) measure from this section.
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Section N/A Implement at least one (1) measure from this section. Recycle Green Waste: compost or recycle landscape waste
Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste
Implement at least one (1) measure from this section. 1. Recycle Green Waste: compost or recycle landscape waste

	C. RECYCLED PURCHASING	
	Section N/A	YES
Impleme	nt at least two (2) measures from this section.	
1. Purchase boxes and/or bags r	made from recycled paper or plastic soda bottles	
2. Use recycled garbage pails or	r garbage bags (recycled HDPE liner bags instead of LDPE or LL	.DPE)
3. Stock/sell products made with	recycled content	
4. Select service providers that p	promote waste reduction and green business practices	
5. Purchase recycled pens, pend	cils, or desk accessories	
•	amendments, dumpster lids, utility bins, benches, or playgroun	
7. Other:		
	Comments	
	y of the above Sections, please explain here: Our new employee forms and manuals are electronic only.	
See BOMA-Hawaii's Energy Efficiency Program (BEEP) Guidebook	Energy Conservation D. EQUIPMENT	YES
	Section N/A	163
Implemer	nt at least two (2) measures within this section.	
·	policy for equipment with energy saving features (Energy Star)	
·	gy by automatically turning off idle monitors.	
	g,,	

See: energystar.gov/powermanagement
3. Use or create a procurement policy to buy EPEAT certified computers (EPEAT.net)
4. Use or create a procurement policy for flat-screen LED monitors
5. Replace inefficient refrigerators (usually older than ten years) with a new efficient model
6. Use an energy efficient dishwasher (look for an Energy Star seal)
 7. Install dimmable ballasts to dim lights to take advantage of daylight. Use daylight dimmers that turn off automatically when there is sufficient light
Section N/A
Implement at least three (3) measures from this section.
1. Maintain sealing around windows and doors to close air gaps in all conditioned spaces
2. Use or invest in renewable energy for at least 50% of your energy needs (ask your local
Utility or Center for Resource Solutions at 415-561-2100 or http://www.resource-solutions.org)
3. Insulate all hot water pipes, hot water heaters and storage tanks
4. Institute a policy to monitor facility energy usage
 Install an Energy Management System (EMS) for central air conditioning systems. Replace inefficient or broken windows with energy-efficient low-emissivity (low-e) windows, with a maximum solar heat gain coefficient of 0.40. Use the most efficient means to heat water. Use a solar water heater or preheater. Use occupancy sensors to adjust set points for air conditioning and heating equipment.
10. Install optical reflectors or diffusers to increase lighting efficiency and reduce the number of fixtures
11. Install <u>lighting controls</u> , such as:
Occupancy sensors in spaces of variable occupancy

16. Apply window film to reduce solar heat gain. Shade sun-exposed windows and walls to mitigate the effect of direct sunlight	
F. Employee Practices	
Section N/A	
Implement at least four (4) measures from this section.	
1. Set thermostat at 76°F for cooling; use timing devices to turn down after hours	
2. Set refrigerator temperature between 38°F and 41°F and freezer between 10°F and 20°F	
3. Seal off unused areas from air conditioned areas	
4. Use a fan or space cooler to condition a small area instead of cooling the entire office \Box	
5. Institute a policy that ensures blinds and curtains are closed when sun is striking	
windows or use ceiling fans to reduce A/C load	
6. Install or use plug load controllers for office equipment that switches equipment off after working hours	
7. Institute a policy to turn off equipment when not in use	
8. If available, use the standby mode on equipment (e.g. energy saver buttons on copiers)	
9. Maintain a policy that checks and adjusts, lighting control devices such as time clocks and photocells	
10. Use "task" lighting with efficient bulbs rather than lighting an entire area	
11. Rearrange or design workspace to take advantage of areas with natural sunlight	
12. Maintain a policy to turn off lights when leaving and post reminders	
13. Maintain a policy to clean lighting fixtures, diffusers and lamps (dirt can reduce lighting	
efficiency by up to 50%) \square	
14. Replace flickering fluorescent tubes	
15. Other:	

Comments

If you have any notable green practices not mentioned or you checked "Other" in any of the above Sections, please explain here:

E.g Employee Practices: Our computers all have a reminder note to shut down or stand-by when use.	n not in

See <u>hbws.org</u> for the Honolulu Board of Water

Water Conservation

G. Water Use Control

Section N/A

YES

Implement at least three (3) measures within this section.
1. Install low flow, self-closing faucets, either infrared or spring-loaded
2. Check and maintain plumbing/irrigation periodically for leaks (water meter is a good indicator).
3. Use dry floor cleaning methods and/or damp mopping, rather than hosing with water
4. Use a rain catchment system for irrigation or plumbing
5. Reduce water pressure to no higher than 70psi by installing pressure-reducing valves
6. Change window cleaning schedule from "periodic" to "as needed"
7. Adjust boiler and cooling tower blow-down rate to maintain TDS (total dissolved solids)
at levels recommended by manufacturer
8. Replace water-cooled air conditioning units with air-cooled models
9. Install conductivity controller on cooling tower
10. Mulch all non-turf areas, preferably with recycled wood chips
11. Test how long it takes irrigation to permeate, then zone to create a minimum run time
12. Instead of one long run for irrigation, use repeat cycles with less time
13. Modify your existing irrigation system to include drip irrigation or soaker hoses
14. For sprinklers, use rain shut-off, evapo-traspiration, or moisture sensor devices
15. Replace water intensive turf with woodchips, mulch, loose stones or permeable pavers
16. If installing new turf, limit area and use drought tolerant species
17. Renovate landscape to include drought tolerant plants (xeriscaping or water efficient
guidelines available from www.hbws.org). Info on Native plants: state.hi.us/health/oeqc/garden/index.html
18. Use recycled content or eco-friendly astroturf
19. Hydrozone: Group plants with similar water/nutrient requirements together
20. For spraying, use high efficiency nozzles (less than 1.6 gpm)
21. Other:

Comments

If you have any notable green practices not mentioned or you checked "Other" in any of the above Sections, please explain here:

E.g Water Use Control: We use catchment water for cleaning.	
· · · · · · · · · · · · · · · · · · ·	

Pollution Prevention

H. General Prevention

Section N/A	
-------------	--

YES

Implement at least three (3) measures within this section.

implement at least times (e) measures times in a ceepier.
1. Buy recycled and low VOC paint products when available
2. Buy paper that is produced by a company with a commitment to environmental stewardship
3. Replace aerosols with non-aerosol alternatives (such as pump sprays for fresheners/cleaners)
4. Replace standard fluorescent lights with low or no mercury fluorescent lights
5. Use unbleached or chlorine-free paper products
6. Reuse or buy recycled/remanufactured toner cartridges
7. Use rechargeable batteries and appliances, such as hand-held vacuum cleaners and flashlights
8. Use non-toxic water-based markers
9. Print promotional materials with soy or other low-VOC inks
10. Do business with other "Green" vendors or services such as those listed in the
Environmental Product Guide (printers, landscapers, etc. See:
hawaii.gov/dbedt/info/energy/resource/greenpurchasing/ or call 587-3802)
11. Provide an employee/customer smoking area with proper disposal cans

12. Establish a policy to police litter control
13. Use natural or low emissions building materials, carpets, or furniture
14. Stock/sell products, which are less toxic or less polluting than conventional products
15. Other:
I. Wastewater and Runoff
Section N/A
Implement at least two (2) measures within this section.
1. Label all storm drains with a message such as "No dumping – Protect our Bay and Ocean"
2. Divert run-off water away from storm drains and into a sewer drain
3. Use an oil/water separator, bucket and rags rather than continuous spray
3. Clean parking lots to contain dirty water and avoid runoff
4. Post signs at trouble spots (e.g., loading docks or dumpster areas) describing proper practices
5. Keep a spill kit handy to catch/collect spills from leaking vehicles, train on spill prevention,
or develop a spill plan
6. Use ground cover or a barrier to prevent soil from washing into storm drains
7. Store deliveries and supplies under a roof
8. Supply outdoor smoking areas with an ashtray or cigarette can
9. Provide receptacles for litter and debris control near building entrances
10. Other:
J. Emissions Reduction
Section N/A
Implement at least two (2) measures within this section.
1. Encourage commuter alternatives by informing employees, customers and others about
transportation options
2. Post bicycle route maps, transit schedules, or commuter ride sign-ups in a visible area for employees.
3. Offer telecommuting opportunities or flexible schedules so workers can avoid heavy traffic commutes
10

4. Provide bus or mass transit passes at company expense
5. Offer lockers and showers for employees who walk, jog or bicycle to work. Provide your own, or
subsidize the cost of locker rentals and shower passes at a nearby health club
6. Encourage bicycling to work by offering rebates on bicycles bought for commuting, or provide
employees a stipend or subsidy for bicycle maintenance
7. Offer secure areas for bicycle storage
8. When possible, arrange for a single vendor who makes deliveries for several items
9. Patronize services close to your business and encourage employees to do the same
10. Provide bicycle parking for customers
11. Enroll in a car sharing program for company business
12. Carefully plan delivery routes and errands to eliminate unnecessary trips
13. Use or establish a procurement policy for low-emission company cars
14. Purchase carbon dioxide offsets for your vehicle
15. Have a bike kit for employees who may have bicycle emergencies
16. Reserve car/van pool parking spaces
17. Provide a commuter van. See Vanpool Hawaii at <u>vanpoolhawaii.com/vanpool/index.htm</u> or call 596-VANS
18. Offer a shuttle service to and from bus, train and/or ferry
19. Offer electric vehicle recharge ports for visitors and employees' electric vehicles
20. Encourage/allow employees to work from home
21. Other:
Comments

If you have any notable green practices not mentioned or you checked "Other" in any of the above Sections, please explain here:

.g	Genera	I Prevention:	We purchase	non-hazardou	ıs material in	bulk to redu	ce waste co	ntainers.
